

# Climate Resilience Worksheet: Culture, Music, and Community

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## Purpose

Explore how music reflects climate challenges and helps communities build resilience.

### Part A: Climate + Culture Snapshot

- 1) What climate event (flooding, drought, coastal change, extreme heat) affects your community? \_\_\_\_\_
- 2) How does this event change daily routines, festivals, or community gatherings? \_\_\_\_\_

### Part B: Music as Resilience

- 3) Name one song, rhythm, or instrument that connects to land, rivers, or survival: \_\_\_\_\_
- 4) What message does it carry about community strength or recovery?  
\_\_\_\_\_

### Part C: Sound Evidence

List two sounds from daily life that show resilience (examples: rain on roof, river boats, market calls): - Sound 1: \_\_\_\_\_

What it shows: \_\_\_\_\_

- Sound 2: \_\_\_\_\_

What it shows: \_\_\_\_\_

### Part D: Creative Response

Write a short 4-line verse or rhythm plan that supports climate resilience:

---

---

---

---

### **Part E: Comparative Reflection (Guyana)**

What lesson do we learn by comparing music across Guyana's diverse ethnic groups when facing climate challenges?

---

---

### **Exit Reflection**

One action our class or community could take to build resilience:

---
